

**ARE YOU LOOKING TO
IMPROVE YOUR WORKFORCE,
MAINTAIN STATE ENVIRONMENT MANDATES,
AND SAVE MONEY IN 2019?
THE CCIA SWC HAS JUST WHAT YOU NEED.**

TRUCK WASH

The CCIA is committed to preserving the environment. Providing a monitored and controlled location for washing vehicles is just one more way we all can protect our watershed, lakes, creeks, rivers and ultimately the ocean itself. The certified facility at the Solid Waste Complex is available for private, educational and government entities to maintain their vehicles and comply with NJAC 7:14A requirements for surface and ground waters in NJ. By credit card or account, the truck wash is available to drivers from 7:30 to 3:30 M-F and Saturdays 8-12.

CNG FILLING STATION

Realizing the global concern for fuel production and air quality, the CCIA has implemented the use of CNG (Compressed Natural Gas) collection vehicles. Taking it one step further, a CNG filling station located at the front entrance of the SWC will provide the opportunity for businesses and individuals who have made the switch to CNG to quickly and conveniently fill their vehicles. With competitive rates and 24/7 public access, look for the grand opening in Spring 2019.

NAPA STORE

Government agencies know well-maintained vehicles equal excellent service. The CCIA understands the budget constraints of many municipalities. The NAPA Store located at the Solid Waste Complex is open for business with the same great products at significant savings. Parts are available by pick up or delivery to your fleet maintenance facility. Take advantage of this budget-friendly service today.

**The Solid Waste Complex is located at
169 Jesse Bridge Road, Rosenhayn, NJ.
